Hi Corbin: could you please re-confirm that the EJ program (you or Jean) will be taking the lead on preparing draft responses to comments consistent with your summary below? This appears to be the case as noted in your first bullet, but we just wanted to make sure.

Thanks,

Douglas

Sarah,

As the EJ program moves forward with review of comments to support the Region's final permit decisions by August 24th, we want to be sure that we're moving in the right direction and are all on the same page. Our understanding of the EJ program's task is that we will:

Ex. 5 AC/DP

Thanks,
Corbin

Hi Sarah,

Thanks for the note and the opportunity to provide feedback on the project schedule. Danny, Jean, and I have discussed and offer the following suggested updates to the schedule. As mentioned last week, due to the nature of the comments

received, we'll need to engage with the program and ORC as we are working through the comments. That should reduce the amount of time needed for technical/legal review on the back end:

Review comments and develop list of changes to make	Jean	March 9	March 31
Update EJ Doc	Corbin	April 1	April 30
Technical/Legal EPA Review	TBD/Kimi	April 30	May 15

Corbin

Subject: Dewey Burdock EJ analysis

Hi all –

Thanks for a productive meeting yesterday. I attached the project schedule for Dewey, which includes some DRAFT target dates and interim steps for the EJ work and RTC. We would appreciate your input on what timing you can commit to for reviewing the EJ comments and drafting narrative responses or revising the EJ analysis to respond to the comments received. As I mentioned yesterday, the inflexible pieces of this schedule are that we need to issue final permit decisions by Aug 24, 2020, and we need to reserve at least 8 weeks for technical, legal, and management review of the EJ analysis and RTC based on past experience and the volume of documents and issues related to this project.

Douglas and Valois will send out the other documents we discussed later today.

Please let me know if you have any questions.

Thanks,
Sarah
